\$\$\$

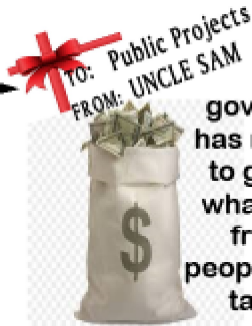

Legislation is written that authorizes taxation on many transactions. They are never repealed and usually increase.

Grants are often used as a tool of bribery to acquire the desires of the planners with an agenda. They may also require additional obligations, matching monies, or commit the recipient to perpetual funding for upkeep and future needs, of the project.

\$\$\$

The government has no money to give, but what it takes from the people through taxation.

\$\$\$

\$\$\$

The money taken by taxation goes to the government.

Meanwhile, deals are made with NGOs & agencies to fund plans on their agendas.

\$\$\$

I "GIFT" THIS GRANT TO YOU.

This is rightly called A REDISTRIBUTION of WEALTH. And when the "Haves" can no longer pay the taxes, they become "Have-Nots" and join those ruled by the Planners "gifting" Grants.

Sooner or later, they are going to run out of 'other peoples' money.

BEWARE THE GRANTS!

They are a tool used to create more poverty!

As taxes increase, government grows and the working class becomes poorer. Many people fall into poverty.

"I got a return on my taxes!"

The little that is ever returned to the people is simply for appeasement.
